## Burn a CD

Create reports on the SPARCC system. Use the procedure @com:fiche to move your text file from your Sparcc system to the fiche directory and fiscweb. Remember if you want your reports to have fiscweb access you must answer yes to the question - do you wish make the file web accessible? This procedure will also automatically create the report in PDF format and rename the report.

Log into your FTP product. You will need to find your fiched files.

When you log in you will see your files. You will need to find the fiche directory. To change the directory, click the ChgDir box on the upper ride side of the FTP product. Once this is open type in your district name: [fiche.budgetary] or your district name:[fiche.payroll] See the example below.

You can create a CD and not finalize it so that you can add on to the CD.

This would be useful if you would want to keep adding your monthly reports to this CD. For example, you might want to add your January budgetary reports, then February, March, April, etc.
