- To:** esltech12noccc.k12.oh.us
- Subject:** Regarding your Individual Performance Development Plan.
- Email Body:** A large text area for entering the message content.

At the bottom of the form, there are two buttons: 'Send Email to esltech12noccc.k12.oh.us' and 'Return to Admin Staff Plan List'.

You also have the option to run interactive reports.

Filter

Filter will allow you to take the display that you see in the activities approved section and narrow your results.

Under column you choose what you want to filter on, such as activity name, vendor, verification method, start date, etc.

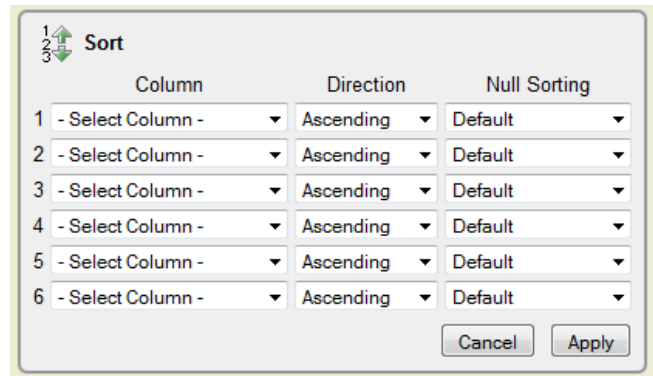

Based on the column filter you use you then will be prompted to select an operator like =, >, <, etc..

You can have multiple filters. In the example below the filter was used to display just requests for sick leave that were greater than 1 day. To remove a filter you can click on the red X.

Sort

Sort will allow you to take the display that you see in the activities approved section and sort your results.

You can have multiple sorts on the information.

Control Break

Control Break will allow you to take the display that you see in the activities approved section and create breaks in the data. For example if you do a control break on Vendor, each leave will have a heading and all requests for the leave type will be displayed under that heading. You can have multiple control breaks on the information.

Highlight

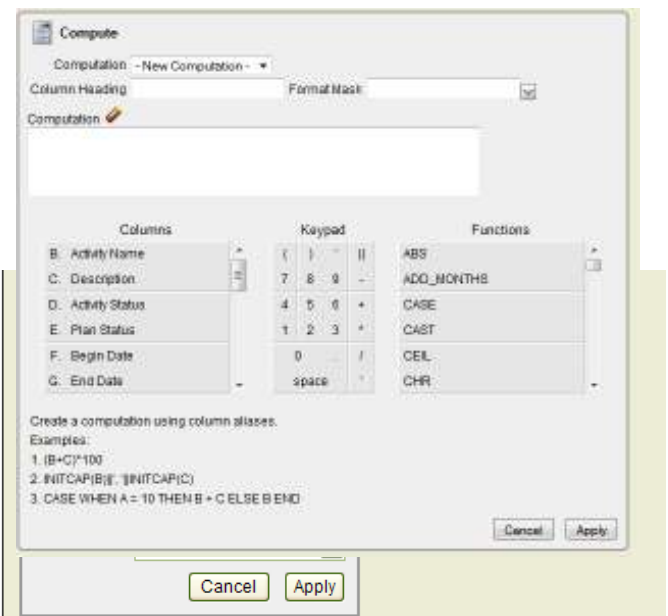

Highlight will allow you to take the display that you see in the activities approved section and highlight the specific data. You can select the background and text color and whether or not you want a row or cell highlighted. For example if you want to highlight all the CEU Credit you would select the column of CEU Credit and use the operator of = and the expression of CEU Credit. All the sick leave would be highlighted with the colors you chose.

You can have multiple highlights. To remove a highlight you can click on the red X.

Compute

Compute will allow you to take the display that you see in the activities approved section and computed columns to your report.

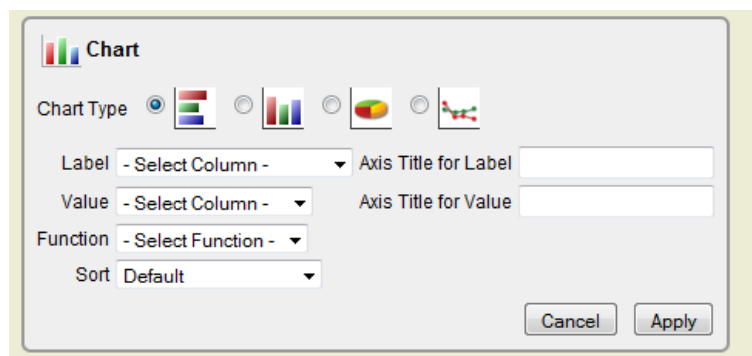

Aggregate

Aggregate will allow you to take the display that you see in the activities approve section and select specific functions such as count, sum, average, etc. You can use the aggregate multiple times with the same information. Once you choose your function your information will be displayed on the last line.

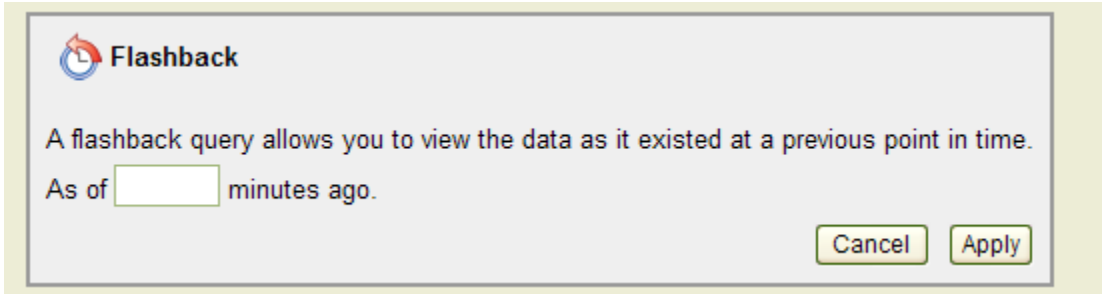

Chart

Chart will allow you to take the display that you see in the activities approved section and see that data as a chart. The available chart types are horizontal bar, vertical bar, pie or line.

Flashback

Flashback will allow you to view data as it existed at a previous point in time. Enter the time in minutes and you will see the data as it appeared at that point.

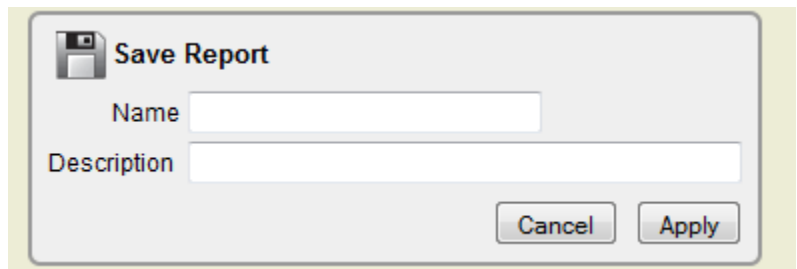

The image shows a dialog box titled "Flashback" with a circular arrow icon. The text inside reads: "A flashback query allows you to view the data as it existed at a previous point in time. As of minutes ago." At the bottom right, there are two buttons: "Cancel" and "Apply".

Save Report

Once you have generated a report with the results you want, you have the option to save the report for future use. Once you click on the save report you will be prompted to enter a report name and description.

The next time you go into the interactive reports, the report you will saved will be available on a tab for you to view.

The image shows a dialog box titled "Save Report" with a floppy disk icon. It contains two input fields: "Name" and "Description". At the bottom right, there are two buttons: "Cancel" and "Apply".

Reset

Reset will reset the report to its default settings incase you just need to start over.
